(Fattouch Bread Cutter)

Reinventing Breadmaking™

specifications

- Fully manufactured in stainless steel 304.
- Belt's width: 15.7" or 400mm
(available as well for 31.4" or 800mm and 39.3" or 1000mm)
- Capacity : 2000 Loaves/hr up to 5400 loaves/hr.
- Loaf diameter: 3.93" or 100mm up to 11.8" or 300mm.
- Pita Chips Piece width: 1.18" or 30mm up to 3.14" or 80mm upon request.
The pita chips pieces width is specified through a shear chopping blades; it is installed in the machine for a fixed width needed.
In the second step of cutting, the rotary blade determines the length of the pita chips piece according to the speed of the blade that can be adjusted through a potentiometer. (As the speed increases, the length decreases).
- Pita chips piece length can be controlled by the user.
- Electric operated with 2 variable speed motors.
- Belt used is self-centering belt of food grade quality non-stick type.
